

FEDERATION INTERNATIONALE
DES VEHICULES ANCIENS (FIVA)

ANF-Status in Germany.

FIVA has decided at her board meeting, held on April 11 and 12, 2008, to transfer the status of the national agency of FIVA in Germany to the Oldtimer Section of ADAC as from October 1, 2008.

FIVA internationally promotes that historic vehicles can be driven on public roads in the future. To be able to achieve this a strong national representative is required. Only if FIVA can document that she speaks on behalf of a majority of classic car owners, FIVA will be successful.

Since the Oldtimer Section of ADAC with approx. 100.000 members is by far the strongest organisation for our hobby in Germany, the FIVA board sees this section as the suitable, strong representative for Germany.

Taking this step FIVA sees a clear reinforcement of the Oldtimer agency representative in Germany for the well-being of all classic car owners.

All German members of FIVA should support this cooperation.
