

Dear Enthusiast

Greetings from the Classic Car Club of Ceylon. Do hope that you and the rest of the team are keeping well. We had our annual general meeting recently and thought it was an opportune moment to update FIVA on the Club events over the past year. The Club has had a very active Calendar of events with regular weekend outings, rallies and family events.

Amongst the more memorable items organized were

Rally to Speed Drome – A fun rally organized to Speed Drome, a well known Pro Carting track situated in the Capital City. At the track several events including speed and driving tests were conducted, with several attractive prizes given to the winners.

Classic Car Club at the Mahagastota Hill Climb – For the first time the Classic Cars were amongst the many participants racing the slopes of the prestigious Mahagastota Hill Climb, a regular fixture on the Sri Lankan Racing Calendar.

Pannala Run – The Members and their families had an outing to the Pannala Race track where we ran several events including Speed Tests as well as fun events such as “Classic Car Relays”

The Ceylon Motor Show - The Ceylon Motor Traders Association and the Classic Car Club combined their strengths to organize the Ceylon Motor Show – a three day event with hundreds of Classic, Vintage and Modern Day cars on display. Over 15,000 people from around Sri Lanka visited the large exhibition centre, braving the adverse weather conditions, to view the cars on display. The highlights of these events have been captured in the video clip below. We would appreciate it if you could share this with any other member who would find it interesting.

We do hope you find the above information useful and look forward to working with FIVA over the coming year.

Warmest Regards

Sanjiv Alles
