<ul style="list-style-type: none">WelcomeTrade and SkillsEU-Green PaperGeneral Assembly 2008	<p>Dear Peeter HENNING</p> <p>Since our last newsletter, FIVA has been very busy. We had the successful Organiser's Meeting at the exhibition of Techno Classica Essen; the general committee had its meeting in Munich and of course there were the several events where FIVA was present.</p>
General Assembly 2008	
	<p>Welcome</p> <p>We would like to welcome our new member, the United Arab Emirates Federation. Michel de Thomasson, former president of FIVA, had some good contacts with Mohammed Ben Sulayem, president of that Federation. Other countries as Mexico and Russia have also applied for membership of FIVA and will probably be admitted at the next General Assembly. Contact : click here</p>
<p>Message especially for our members! The Belgian Federation will organise the General Assembly in Brussels. The several meetings will start on Thursday October 23rd and the General Assembly will take place on Saturday October 25th, 2008. The picture alongside will be used for all information you will receive about this General Assembly.</p> <p>Invitation Sri Lanka Motor Show</p>	<p>Trade and Skills</p>  <p>During 2006/2007 FIVA decided that Trade and Skills should be included in its policy work and form part of its new Directorate. This decision was based on the belief that such issues would, over time, become more critical to the survival of the historic movement worldwide. At the September 2007 General Assembly meeting in Copenhagen a new Director, Tony Davies (UK), was elected to oversee this new work for FIVA.. Since then Tony has been working to get the Board's agreement for FIVA's Objectives for this new initiative and latterly to write this Strategy Paper to outline the way ahead to achieve those Objectives.</p> <p>Strategy paper : click here</p>

EU-Green Paper

Dear members and friends of FIVA,

Following is FIVA's comment to the EU-Green Paper on urban mobility. This comment outlines FIVA's position on the main issues of our hobby like

- vehicle use in urban areas
- characteristics of historic vehicles
- cultural value of historic vehicles
- economic value of historic vehicles
- urban policy on restriction zones

The arguments you find there are not only relevant in the EU but may as well be valuable on national level.

Winfried Kallinger - FIVA VicePresident Legislation
